EXPERIENCE

EDUCATION

Hey Coach | Tech Interview Coaching
Dec 2021 – April 2022

TKM COLLEGE OF ENGINEERING

BTECH DEGREE IN COMPUTER SCIENCE AND ENGINEERING
2014 –18

PROJECTS

OFFICE SEAT BOOKING —The project is a generalized platform focused on creating and managing real time seatbooking in the office , where an employee can choose to book his/her seat in advance by checking the availability. The aim was to make the hybrid work model more friendly to the employees . The front end of the application is developed with React and backend with node.js. This is deployed in Netlify

 Technology Used: Nodejs, React, Material UI.
